

Did you know?

Attending middle school at Saint Paul School means:

- mentoring younger students
- leading the student government
- overnight trips to Washington & Philadelphia
- hands-on learning in an atmosphere of intellectual curiosity

"Graduates of Saint Paul School do well at NDA because they have a firm foundation in all academic areas and they have developed a love of learning. Acts of community service and creating bonds with their classmates come naturally to these girls who have learned to love God, each other and themselves."

*-Sister Barbara A. Barry, SNDdeN '69
President, Notre Dame Academy, Hingham*

"At BC High, we read applications and enroll students from over 200 middle schools in eastern Massachusetts each year. Saint Paul School is one of the few schools that we can be completely confident in the depth and breadth of the preparedness of their graduates. It is easily one of the best four or five Catholics schools that I have seen, as defined by the quality of the applications of their 8th grade boys. Once at BC High, their graduates are successfully involved in all facets of our community-in the classroom, on the stage, on the fields, and in the community. Additionally, the parents of our Saint Paul School students are among our most active and supportive of our mission. We value our relationship with Saint Paul School and its families and look forward to enhancing this connection of shared values in the years to come."

*- Michael J. Brennan
Director of Admissions and Financial Aid, Boston College High School, Boston*

"I am grateful to Saint Paul School for the positive influence it had on my early development academically, spiritually, morally and ethically. The nurturing and disciplined environment provided a solid foundation for my success in high school at St. Sebastian's, in college at Boston College and in my professional career in the NHL."

*-Brian Boyle, Saint Paul School '99, St. Sebastian's School '03, Boston College '07
Professional Hockey Player, New York Rangers*

"Saint Paul School really prepared me for high school. It gave me a strong background in all of my subjects and provided me with a deep spiritual foundation."

-Kate French, Saint Paul School '07, Notre Dame Academy '11

"As a Saint Paul School alumna (class of 1992), I am proud to send my son there now (class of 2018) and will send my other children when they are old enough. Saint Paul School's combination of educational excellence rooted in Catholic teaching was a determining factor in our decision to send our children to the same school at which I had such a positive experience. I received an excellent education at Saint Paul School and learned from teachers whose enthusiasm for learning and knowledge of their subjects stayed with me throughout the rest of my education. The friends my siblings and I made at Saint Paul School continue to be in my life today, and I look forward to my own children developing those lifelong bonds."

*- Mary Elizabeth Puzo Bailey, Saint Paul School '92, Notre Dame Academy '96 (Valedictorian),
Boston College Honors Program magna cum laude '00, M.A. in History Boston College '01*
