

### ***Did you know?***

*85% of the average graduating class at Saint Paul School places into advanced or honors courses upon entering both public and private high schools.*

Dear Parents and Prospective Students,

I thank you for your interest in exploring the possibility of having your child or children experience Catholic School education.

Catholic schools are schools you can believe in. We at Saint Paul Parish are committed to preserving and handing on the faith to our young students through our parish school and we warmly welcome students from our neighboring parishes to join our school community. We are very proud of Saint Paul School which provides, in addition to our

religious studies, solid foundations in reading and writing skills, math and science aptitude, social studies, art and music.

We invite you to schedule a time to visit classrooms, talk with teachers and discuss with Mrs. Cynthia Duggan, our principal, or myself the opportunities for enrolling now in Saint Paul School.

Sincerely yours in Christ,

Reverend James F. Rafferty
